

WHAT'S HOT FOR APRIL

By Kimberly Fisher

FOR THE LADIES:

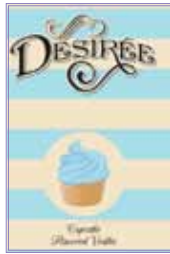

Makeup: As the weather heats up, the makeup tones down. Accentuate your favorite features with light, airy neutral soft shades in preparation for spring.

Fashion: No need for heavy winter clothes anymore; celebrate spring with bright florals, bold patterns and a flash of color on your shoes.

FOR THE DRINKERS:

New to the market: cupcake flavored vodka. Satisfy your sweet tooth with this delectable treat from Desiree. Also coming soon: Whipped Cream flavored vodka from White Rock.

FOR THE FOODIES:

Check out the East coast favorite Fig N' Olive now open in West Hollywood. The Mediterranean tapas menu features favorites like Zucchini Carpaccio with fresh Lemon Juice, Pine Nut, Parmesan, and Picholine Olive Oil, or a Fig Gorgonzola Tartlet with Melted Gorgonzola, Prosciutto, Fig, Walnut, Arugula, and Tomato.

FOR THE TECHIE:

Hey Apple Fans. Have you seen the iPad 2? The new iPad features improvements across the board from the original iPad: increased processing speed, slimmer design, less weight, cameras and a gyroscope. Cost? The same.
